Glo Skin Beauty Facials

Glo skin peels harness the deeply exfoliating properties of a variety of naturally occurring acids including those derived from fruit, nuts and milk to name but a few. These acids, including Lactic, Mandelic, Glycolic and Salicylic, help to unclog pores, reduce inflammation and regulate excessive oil production, thus removing dead and damaged skin cells and stimulating the renewal of healthy new cells beneath the surface of the skin. Following treatment, open pores, blemishes, acne, pigmentation and fine lines are all visibly reduced and skin is left glowing, tightened and radiant. Allow for a 30-minute free consultation with one of our Fully Qualified Therapists prior to booking your treatment.
